WORK EXPERIENCE

MERN Developer @ Wipro — Feb 2023 - Current
Wipro

- ○ **Express.js and Next.js**: Developed server-side applications using Express.js and client-side rendering using Next.js, creating robust and efficient APIs and dynamic, SEO-friendly web applications.
- ○ **Performance Enhancement**: Improved site's loading by 0.3s via caching and CDN integration in Express.js backend, enhancing performance and user experience.
- ○ **Collaboration**: Worked with cross-functional teams to gather requirements, design solutions, and deliver high-quality web applications.

Java Full-Stack Developer @ Wipro — July 2022 - Feb 2023
Wipro

- ○ **Spring Boot and Microservices**: Developed and maintained RESTful APIs using Spring Boot, and implemented microservices architecture to enhance the scalability and modularity of the application.
- ○ **Best Practices**: Applied best practices in software development, including version control (Git), unit testing, and CI/CD pipelines, to achieve high code quality and efficient deployment processes.

PROJECTS

Hangout Server (Discord Clone) ⬈
React, Next.js, TypeScript, Tailwind CSS, MySQL, Prisma, Websocket, OAuth

- ○ **Messaging and File Sharing**: Implemented messaging and file-sharing features in Discord clone using WebSockets, enhancing user interaction and collaboration within the application.
- ○ **Database and Authentication**: Utilized MySQL and Prisma for efficient database management in Discord clone, ensuring secure data storage and retrieval. Implemented OAuth authentication for user registration and login, enhancing application security and user onboarding experience.

Zero.(Zapier Clone) ⬈
React, Next.js, TypeScript, Tailwind CSS, PostgreSQL, Prisma, OAuth, Webhook, CI/CD, AWS

- ○ **Integrated Diverse Ecosystems**: Seamlessly connected users' Google Drive, Slack, Discord, and Notion accounts to our B2C SaaS platform, enabling efficient data exchange and workflow automation without relying on integration libraries.
- ○ **Innovative Workflow Builder**: Developed a visually stunning drag-and-drop node interface with infinite canvas and mini-map functionality, empowering users to create custom automation flows and sequences effortlessly.

PROGRAMMING SKILLS

- **Languages**: C++, JavaScript, TypeScript, JAVA, Python, SQL
  Technologies: Spring Boot, React, Next.js, Prisma, Express, Redis, AWS, GCP, Git

EXTRACURRICULAR

- **Open Source Contributions**: Actively contributing to open-source repositories like Papermark, Dub, DistributedAid.
- **Certification**: AWS-certified Cloud Practitioner, Google Cloud Certified
- **Problem Solver**: Solved 250+ Leetcode problems. Leetcode Profile:⬈
- **Languages**: Proficient in English, Bangla, and Hindi.
